Maverick Money Maker is an okay course. They are not a scam, but their resources are not there. It is highly price and I believe there are better course out there that can teach you on Internet marketing in a much cheaper price.

## Who Am I?

I am just living with my family in a small country called Singapore and used do things like what ordinary people did. I had to work part time as waiter to earn extra cash for myself.

However, I always wanted to work for myself. Therefore, I started to search for opportunities. I took all my earning from my part-time job and began my internet venture.

As a twenty years old man, I started to earn part time income over on the internet right from my bedroom with just a notebook. Today, I had more than one website running on the internet that makes me money while I am sleeping!

Yep... That was me when I am 18...

When I started my online venture, it had never gone too well. One day, I had an idea of selling products on eBay. I started to search for wholesalers online to see if there is any reliable wholesaler and I just gave away around \$1000 to one scammer!

After so many obstacles I finally overcome them. I joined my first internet marketing program [Wealthy Affiliate](#) and my first

program, [Security Animals](#), and my first wholesale directory company [World Wide Brands](#). At first I was afraid to get scammed again, but I overcome the fear and luckily, they are legitimate. Now, I am earning thousands of dollars on eBay, as well as on the internet. 27reviews.com is my attempt to help you to overcome the entire obstacle that I went through by providing online opportunities business reviews.

To the left, you'll see some of the programs I personally tried.

You can read each of these programs review and there are many more on [27reviews.com](http://27reviews.com). I really hope 27reviews can make you successful. I cannot be by your side and tell you what to do, but I hope I can bring you to the right direction.
